

# Responding to online safety incidents

## an eSafety professional learning presentation for schools

### eSafety Toolkit for Schools

Creating safer online environments

This presentation aims to help schools deliver online safety professional learning for staff. We recommend this professional learning is completed after the initial session on [Responding to online safety incidents](#).

At the end of the presenter notes, there are scenario cards that are to be cut out, distributed to the groups and used to complete the activities on the slides.

Suggested solutions have not been included as the approach to resolve the problem presented in each scenario will vary depending on context. In formulating a solution, consider whether a strengths-based approach would improve outcomes. This approach focuses on enhancing student capabilities and addressing deficits, rather than focusing solely on the incident at hand.

The slides and scenario cards can be used in a workshop format, during staff meetings or at a planning day to prompt discussion about working with parents/carers after an incident.

Download the eSafety [Respond 7 - Tips for parents/carers after an online safety incident](#) resource to help participants complete the activities.

Consider incorporating any relevant school/sector policies or procedures into the presentation.

## Presenter notes for Presentation 2

Slide	Notes for presenter	Timing
1. Title slide	<p>Today's professional learning was developed by the eSafety Commissioner. It's designed to help schools look at how they can work with our parents and carers after online safety incidents.</p> <p>At end of this presentation you will have:</p> <ul style="list-style-type: none"><li>• have greater confidence to engage with parents if an online safety incident occurs</li><li>• have greater knowledge about eSafety resources that support schools as they respond to incidents</li><li>• have reflected on current practice to inform future practices.</li></ul> <p>Before we begin, I wanted to note that if anything in this presentation causes distress, please feel free to leave the room and follow up with the appropriate supervisor or support at school.</p>	-
2. Setting the context	<p>It can be difficult for parents to know what to do after they have been made aware of an incident.</p> <p>This doesn't change whether their child has been the target, a bystander or the instigator.</p> <p>Emotions can run high and, if an incident is not treated with care, things can quickly escalate.</p>	5 min
3. Activity	<p>Today's session will include various online incident scenarios. The focus is on communicating with, supporting and advising parents.</p> <p><b>Instructions</b></p> <ol style="list-style-type: none"><li>1. Divide participants into small groups and distribute scenario cards.</li><li>2. Prompt participants to think about how to respond by asking them to consider how they would work with the parents/carers in the scenario.</li><li>3. Ask participants to discuss their scenario and responses in groups. Participants should use eSafety's <a href="#">Respond 7 - Tips for parents/carers after an online safety incident</a>. Remind participants to consider school or sector policies, where applicable, when thinking about their response.</li><li>4. Invite each group to present their findings. There may not be definitive answers to all scenarios. The goal is to identify what good practice might look like.</li><li>5. Once groups have shared their responses, also ask them to share tips and strategies.</li><li>6. As a group, discuss the strengths of various responses and areas for improvement.</li></ol> <p><b>Important note</b></p> <p>Some of the scenarios may raise issues that should be discussed with a school leader, sector advisor or legal team.</p>	5 min

4. Question 1 How would you work with the parents/carers in your scenario?	<p>Discuss the question in groups.</p> <p><b>Things to consider:</b></p> <ul style="list-style-type: none"> <li>Should the young person have the opportunity to tell their parents themselves? Remember, staff should follow their school's policy and procedures, informing and involving parents/carers as soon as reasonably possible, unless there is a good reason not to. An example of this is if it puts the student at further risk or hampers a possible police investigation.</li> <li>Are all parents/carers aware of the school incident and complaints reporting procedures?</li> <li>Is there an age restriction for the social media service used?</li> </ul>	5 min
5. Response to Question 1	After the group discussion, ask the groups to present their answer (approx. 1-2 minutes for each scenario).	5 min
6. Group discussion	<p><b>Ask participants:</b></p> <ul style="list-style-type: none"> <li>Who agrees?</li> <li>Who would have done something different? Why?</li> <li>How would this work in our school?</li> </ul> <p><b>Things to consider:</b></p> <ul style="list-style-type: none"> <li>If the incident occurred on an app with an age restriction, address the wellbeing issues before pointing out that the student should not be on the app in the first place.</li> <li>Having a school community engagement plan and developing a school charter of commitment to online safety can help to encourage safe, responsible and respectful online behaviours in your school community.</li> <li>If a child has used technology inappropriately, support them to take responsibility for their actions. You can also provide ideas to help them resolve the issue.</li> <li>Keep parents in the loop to ensure clarity and understanding about actions and outcomes.</li> </ul>	10 min
7. Wrap up	<ul style="list-style-type: none"> <li>What have you learnt today?</li> <li>Do we need to change the way we communicate with our parent community?</li> <li>Do we need more training in this area?</li> </ul>	5 min
8. Final slide		Total 45 min

## Secondary scenarios

### Secondary scenario 1

Charlie makes inappropriate remarks about Yoshi's ethnicity on Yoshi's social media profile. Yoshi is confident and assertive and informs Charlie that the behaviour is disrespectful. Yoshi reports the incident to the class teacher. Charlie is currently struggling with being new to the school and having difficulties fitting in.
